Who is this programme for?

Applications are open to the arts therapists/counsellors/psychotherapists and other suitably qualified health professionals with substantial experience of working patients with MUS. This is a **Follow-Up** course, by invitation, for those who have satisfactorily completed the Introductory course. It is designed for suitably qualified professionals aiming to become group facilitators/assistants through P2W with people with medically unexplained conditions. A commitment to attend both days is required.

What does the programme cover?

Aim: To further train and to assess participants in the application of TBMA® to those with medically unexplained bodily symptoms at the primary-community care interface. Subsequently, participants will be free to use the approach in both private practice and NHS/Corporate through the company P2W provided they sign the appropriate legal contracts.

- Presence in the facilitator.
- Witnessing and mindfulness.
- Self-nurture and kindness in self-managed care.
- Early trauma, attachment and medically unexplained symptoms.
- Perceptions of, and relationship to, symptoms.
- Practical arrangements to deliver groups (code of conduct/legal obligations).
- The importance of promoting wellbeing (or living well with symptoms) and the development of self-esteem.
- Meaning-making from sensory experiences
- Breath and sensory- motor practices.
- Systematic practice of the roles of witness and expresser/mover.
- The manual - conceptual knowledge, general tools, stance/attitude of mind
Facilitator's agreement, MIS and procedures for employment.
- A short assessment prior to certification will take place during the second day.
